WHO WE ARE

Bilfinger is one of the world’s leading international engineering and services companies employing almost 60,000 people in more than 50 countries around the world.

Bilfinger is unique in that it brings together two complementary characteristics: the specialist knowledge and innovative strength of engineers with the passion and customer focus of the committed service provider. Bilfinger develops, builds, maintains and operates plants and buildings for industry and real estate.

In the United Kingdom Bilfinger employs over 9,000 people across all regions from London to the far North Sea oilfields. We provide a broad range of engineering and service solutions to commercial and industrial clients in the oil and gas, industrial services, building, real estate and facilities sectors. Our work helps to keep oil and gas supplied, industrial and production facilities functioning, shopping centres open and offices running. Our planning and development advice helps bring forward large scale urban regeneration projects in our cities and our regions.

Bilfinger’s businesses in the United Kingdom are structured to deliver engineering and services around the country right where they are needed, with a focus on delivering outstanding engineering and service solutions. We also deliver the best in consultancy advice to create individual and sustainable solutions for our clients.
Bilfinger is one of the world’s leading providers of integrated technical services to the process industry and the energy sector. The key to our success is a comprehensive range of services that cover the entire lifecycle of industrial plants – from engineering to maintenance.

With bases from the Shetland Islands to Southampton, Bilfinger Industrial Services is a leading industrial services supplier to the UK process, petrochemical and power industries. The company designs, builds, maintains and modernises facilities in the oil and gas, chemicals, agro-chemicals and power generation industries.

Bilfinger Salamis is at the forefront of supplying fabric maintenance and inspection services to the UK offshore oil and gas industry. Operating from Aberdeen and Lowestoft, Bilfinger Salamis offers services like painting, blasting, scaffolding, insulation, fire proofing, supply of multi-disciplined deck crews, specialist cleaning, architectural outfitting, decommissioning, and extended inspection services.

Bilfinger Industrial Automation Services is the UK’s leading provider of automation and control solutions and maintenance services, providing turnkey solutions for the design, manufacture, installation and maintenance of bespoke control and instrumentation systems, electrical power systems and data communication systems.

With more than 4,100 employees, Bilfinger generates a turnover of approximately £400m in the sector of industrial services.
In the United Kingdom the Real Estate and Facility Services sector is represented by two companies: GVA Real Estate and Europa Facility Management.

These two companies provide clients with the opportunity to integrate all property services from a single service provider across their entire real estate portfolio.

Bilfinger GVA Real Estate is a leading property consultancy offering integrated property solutions. The company delivers investment, management, transactional and project management advice to occupiers, developers and investors and is based out of regional offices in Glasgow, Edinburgh, Manchester, Leeds, Birmingham, Bristol and London.

With its 1,300 employees, Bilfinger GVA manages some of the UK’s biggest property mandates, and advise on some of the largest development and regeneration schemes in Scotland, the North West, North East, South West, the Midlands, London and the South East.

Bilfinger Europa Facility Management is a diversified integrated facility management company employing over 3,600 people. The company provides a comprehensive range of facility services including technical, mechanical and electrical services, cleaning, security, project management and workspace management across multiple sectors. These include the public sector, healthcare, retail, financial and insurance, as well as commercial and industrial sectors. The company also provides innovative energy management and energy supply solutions contracting across all sectors.
BILFINGER COMPANIES
IN THE UNITED KINGDOM

Bilfinger has been active in the United Kingdom for decades. We continue to invest in our teams providing the very best in skills and training to provide the engineering capabilities and services that our clients require.

All our businesses operate within a clear and transparent code of conduct. Compliance rules are in place on a Group wide basis, and we go to considerable lengths to ensure that all employees are aware of and observe these important rules and regulations.

We act in a responsible way towards our stakeholders in order to build a sustainable business and give something back to our communities. Our approach to Corporate Social Responsibility is embedded in company culture and underpinned by company values. We constantly evaluate the impact we have as a business and adapt our CSR strategy accordingly.
